OBJECTIVE

Motivated and detail-oriented Computer Science graduate with strong programming and problem-solving skills. Seeking to contribute and grow within a forward-thinking organization.

TECHNICAL SKILLS

Programming Languages

JavaScript Python Java
C

Full Stack Technologies

Node.js React Express.js
MongoDB MySQL

Libraries Tools

Git/GitHub Figma Postman
Bootstrap TailwindCSS

EDUCATION

BE in Computer Science and Engineering

Kalpataru Institute of Technology, Tiptur, Karnataka

📅 Aug 2019 – Aug 2023

Pre-University College

Ananth PU College, Arsikere, Karnataka

📅 Mar 2017 – Mar 2019

SSLC/10th

Ananth International School, Arsikere, Karnataka

📅 Mar 2016 – Mar 2017

EXPERIENCE

Web Development Intern

Ten Seconds Pvt Ltd

📅 June 2022 – Aug 2022

- Developed a shopping cart application for e-commerce websites using HTML, CSS, JS, Python Flask, and MySQL.
- Implemented features like adding/removing items and optimizing the backend for scalability.

MERN Stack Development Intern

Pentagon Space

📅 Sep 2024

- Developed and deployed responsive front-end applications using React and Node.js.
- Gained hands-on experience in integrating backend services with MongoDB.

PROJECTS

Efficient Model for Kannada Handwritten Character Recognition

📍 Machine Learning-Based Project | Python

- Implemented character recognition using Adaptive Attention-based Dense Transformer Network (AADTN).
- Optimized parameters with Opposition-based Sandpiper Optimization Algorithm (OSOA).
- Achieved competitive performance over traditional methods.

Movie Ticket Booking System

📍 Responsive Website | MERN Stack

- Built a React-based app for browsing movies, viewing details, and booking tickets.
- Integrated features like user authentication, movie search, and seat selection.
